# **NATIONAL LEAGUE 2024/25**

**Ballroom, Latin Classical & Modern Sequence**

**Couples & Solo**

**When you enter any competition organised by a DPA member, National League points will automatically be awarded to every competitor participating in the National league categories listed on page above.**

**To make this easier for you, all DPA members are required to title National League categories on their competition programme with the initials NL.**

**DPA member can purchase Platinum Points for their competition. Look out for a verification sticker, which will be added to their competition entry on the DPA calendar.**

**Once again, to make this easier for you, all DPA members are required to title Platinum Points categories on their competition programme with the initials PP.**

**All National League categories can be turned into Platinum Points!**

**More Platinum Points information can be found on the next page.**

**NEW**

# **FOR 2024/25 PLATINUM POINTS**

**The Dance Promoters' Association Executive Committee are pleased to announce the launch of the new Platinum Points to commence at the start of the 2024/25 League, 1st August 2024.**

**A bigger and better evolution of the National League for its members and you the competitor!**

**The Dance Promoters' Association together with its members are continuing to evolve an ever-changing competition market.**

**Super League was introduced to enable selected National League categories to receive higher points however, this was not available to all National League categories, and now it's time for us to change that.**

**Platinum Points (PP), which will replace Super League goes much further, as it allows Promoters to select any category that is currently in the National League system and allocate points accordingly.**

**Therefore, a promoter can custom design a programme to suit.**

**A promoter may have a maximum of 12 Platinum Points per day (per section, Ballroom/Latin and Classical/Modern Sequence) of their event, and at this time take advantage of one extra, making a total of 13!**
